Thanks for the clarification.

Dave's workload is very heavy and he has many competing priorities. OU1 continues to be our biggest priority. Having said that, whether the site is on the NPL or not, may impact site decision-making and the nature of our long term involvement. So far, we continue to move forward as if the site will be listed and we are fully involved.

Angeles

> Sorry if there was some confusion in translating the information Dave Seter shared on the call last week, my fault. To be more accurate, Dave indicated that he was not going to spend a lot of time on decisions regarding OU-1 until ARC and NDEP finish their negotiations. Obviously, we don't want any slowdowns, but if this doesn't extend to what your contractors are currently working on, that's good news. Thanks.
